IRAQ/IRAN MILITARY SUMMARY

25X1

1. (S/D) This report updates the most recent¹ in a series of imagery-derived reports on the Iraq/Iran conflict and covers the period [] This report discusses deployed ground forces in the forward area, rear garrison units (Figure 1), airfields, naval bases, commercial shipping, POL facilities, the Nuclear Research Center in Baghdad, and related air activity in Saudi Arabia. Military unit designators and subordination (where used) are derived from collateral sources.² Acronyms and abbreviations are defined in a glossary at the end of the report. Additional reports will be issued as the situation changes.

25X1

OVERVIEW

2. (S/D) Imagery of the forward areas of conflict on [] showed the Iranian forces still in control of Abadan, Ahvaz, and Dezful.

25X1

3. (S/D) Iranian force positions remained essentially unchanged west and southwest of Ahvaz between [] However, Iraqi forces were seen advancing on Ahvaz from the northwest. Continued evidence of Iranian forces receiving reinforcements was seen on []

25X1

25X1

4. (S/D) Iranian forces in the Dezful area crossed to the west bank the Karkheh river between [] [] Iraqi force strengths/positions remained essentially unchanged between []

25X1

25X1

5. (S/D) Nine Iraqi and two Iranian rear area garrisons were imaged during the reporting period. Iraqi units remained out of garrison. Additional Iranian units departed from installations in Mashhad and Zahedan along the Iran/Afghanistan border.

6. (S/D) Six Iraqi and 14 Iranian airfields were imaged. Three new SA-3 SAM sites were seen near Kirkuk Airfield in Iraq. Evidence of Iranian transport aircraft dispersal was seen at Mashhad and Zahedan airfields in Iran.

7. (S/D) No Iraqi and two Iranian naval facilities were covered.

8. (S/D) Fourteen POL facilities in Iraq and seven in Iran were imaged. Damage was seen at one Iraqi and two Iranian facilities.

9. (S/D) Related activity included continued concealment efforts at Baghdad Nuclear Research Center and the presence of at least two Iraqi CANDID aircraft (civil markings) at an airfield in Saudi Arabia.

GROUND FORCE ACTIVITY**Iraq/Iran Forward Areas****Abadan Area**

10. (S/D) The area north of Abadan, Iran, previously occupied by Iraqi forces, was not imaged during the reporting period. However, across the Shatt Al Arab, in Iraq, an Iraqi field artillery battery remained in its positions on [] Although Iranian infantry was probably still in the city, no Iranian units were observed.

25X1

Ahvaz Area

11. (S/D) An Iraqi armored force consisting of one tank battalion and one mechanized infantry company was observed 35 nm northwest of Ahvaz on [] (Figure 2). Although no Iranian forces were seen in this area, due to coverage limitations, Iranian forces were in this area on [] The areas west and southwest of Ahvaz where Iraqi forces were seen on [] were not covered during this period.

25X1

25X1

25X1

12. (S/D) Iranian ground forces continued to be deployed west and southwest of the city of Ahvaz on [] These forces consisted of one tank company, one mechanized infantry company and a SP gun battalion. A ZSU-57/2 SP AA battery was deployed just north of the city. The presence of tank and mechanized infantry companies in the place of the platoons that were seen on [] may indicate continued Iranian reinforcement activity.

25X1

25X1

13. (S/D) No change was seen at Ahvaz Barracks Storage Depot Brigade and Division Headquarters [] and Ahvaz Hawk Site 10 ([] remained unoccupied.

25X1

Dezful Area

14. (S/D) Iranian forces had crossed the Karkheh river, west of Dezful, by [] and maintained this position through [] (Figures 3 and 4). The Iranian force observed on partial coverage of [] consisted of two tank companies of a tank battalion (one company shown on Figure 5) and one mechanized infantry company on the west bank of the river while the third tank company of the tank battalion, with elements of a mechanized infantry company, two M-109 SP gun batteries and one reinforced AAA battery
